

Growwite Cow Aid Data Sheet

Cow Aid is a rapid source of energy for cows suffering from sudden energy loss. (Ketosis)

500ml (545g net)

A viscous brown liquid.

Analytical Constituents

| | |
|---------------|--------|
| Crude protein | 1.70% |
| Crude fibre | 0.00% |
| Crude fat | 0.02% |
| Crude ash | 3.25% |
| Moisture | 11.50% |

Composition

Propylene Glycol (Propane-1,2-diol)

Additives per 100ml

| | |
|-----------------------------------|----------|
| Vitamin A | 50,000IU |
| Vitamin D3 | 5,000IU |
| Vitamin E (alpha tocopherol) | 250UI |
| Vitamin B1 | 20mg |
| Vitamin B6 | 10mg |
| DL- methionine | 20mg |
| Nicotinamide | 20mg |
| Zinc (as zinc sulphate) | 102mg |
| Manganese (as manganese sulphate) | 61mg |

| | |
|------------------------------|----------|
| Iodine (as potassium iodide) | 47mg |
| Iron (as ferric citrate) | 21mg |
| Cobalt (as cobalt sulphate) | 0.75mg |
| Molasses | to 100ml |

Intended Use

CowAid is a complementary feeding stuff intended for the reduction in the risk of ketosis (acetonaemia) in cows. It is also intended for the use during recuperation from ketosis. It is recommended that a specialist's opinion be sought before use.

CowAid should be used 3-6 weeks after calving.

Give 250ml by drench at the first signs of ketosis.

Repeat after 12 hours, if necessary.

Repeat after 24 hours if the acetonaemia persists.

DO NOT EXCEED THE STATED QUANTITIES

Withholding Period:

None

Warnings:

Shake well before use

Keep out of reach of children

Protect from heat

FOR ANIMAL FEED ONLY

Manufactured for Tulivin Laboratories Ltd.
